Hey Ambuja and Andrew,

Happy Wednesday! I hope that things are going well for you today up in DC. The humidity and heat have returned to NC.

Would you mind sending me the materials for the formaldehyde neurotox review (i.e., just the tox review)? I can probably start the "initial thoughts" review while I'm waiting for L: drive access.

Let me know if you have any questions. Have a great morning/USA birthday! ☺

John
